Steps to follow activate your device on company portal

The image displays four sequential screenshots of the 'Trent Limited' mobile application setup process. Each screen has a blue header with the company name and a menu icon.

- Screenshot 1: Trent Limited Access Setup**
The screen explains the purpose of the setup: to access email, Wi-Fi, and work apps. It lists two steps: '1. Get your device managed' and '2. Update device settings'. A link 'Learn more about device setup' is at the bottom. The 'BEGIN' button at the bottom right is highlighted with a red box.
- Screenshot 2: Trent Limited cares about your privacy.**
This screen details privacy policies. It states that while setting up, some Android permissions are requested. A list of things the company 'can never see' (Call and Web history, Location, Email and text messages, Contacts, Passwords, Calendar, Camera roll) is shown. Below, a list of things the company 'may see' (Model, Serial number, Operating system, App names, Owner, Device name, Manufacturer, Phone number for corporate devices, and company-granted permissions) is listed. The 'CONTINUE' button at the bottom right is highlighted with a red box.
- Screenshot 3: What's next?**
This screen outlines the next steps. Step 1 is 'Allow permission to make and manage phone calls', explaining that the device needs to report its serial number and antenna ID. Step 2 is 'Activate Android device administrator', explaining that this allows the company to apply required settings. A link 'Learn more about permissions' is provided. The 'NEXT' button at the bottom right is highlighted with a red box.
- Screenshot 4: Activate device admin app?**
This screen shows the 'Company Portal' app icon and explains that activating it allows the company to perform operations like deleting all data, changing the screen lock, setting password rules, monitoring screen unlock attempts, locking the screen, setting screen lock password expiry, setting storage encryption, disabling cameras, and disabling some screen lock features. The 'Activate this device admin app' button is highlighted with a red box, and a 'Cancel' button is at the bottom.

Steps to follow activate your device on company portal

Trent Limited

Registering your device...

This may take a few minutes... You can use other apps but you might not have access to Trent Limited resources yet.

Trent Limited

Adding your device to Company Portal...

This may take a few minutes... You can use other apps but you might not have access to Trent Limited resources yet.

Trent Limited

Finishing setting up device...

This may take a few minutes... You can use other apps but you might not have access to Trent Limited resources yet.
